BUSHMASTER BA50 CHAIN LOCK

Designed to fit BUSHMASTER firearm models: BA50 (90101, 90102)

WARNING!

THIS LOCK MAY BE CUT OR DEFEATED BY A DETERMINED INDIVIDUAL AND MAY NOT PREVENT INTENTIONAL MISUSE OF A FIREARM

- **Read the Owner's Manual supplied with your firearm, including the Ten Commandments of Gun Safety, before operating the firearm and before installing the Chain Lock.**
- **Store firearms and ammunition separately and securely.**
- **Keep firearms and ammunition out of the reach of children.**

Installation Instructions

1. Always keep the firearm pointed in a safe direction.
2. Engage the firearm's safety mechanism in the safe position. See Firearm's Owner's Manual.
3. Unload all ammunition from the firearm in a safe manner. See Firearm's Owner's Manual.
4. Visually inspect chamber and magazine box confirming that the firearm is completely unloaded.
5. To unlock Chain Lock, insert the key provided into the lock and turn clockwise.
6. Remove lock from chain ends.
7. Refer to Figures 1, 2 and 3 below:
    a. Open the bolt. Make sure the bolt remains in the open position. See Firearm's Owner's Manual.
    b. Remove the magazine from the receiver. See Firearm's Owner's Manual.
    c. Pass one end of the chain through the bolt handle slot and down through the magazine housing.
8. Pass the open lock through both ends of the chain simultaneously and close lock firmly.
9. Remove key from lock body.
10. Make sure chain is secure and locked by pulling on lock. If lock releases, repeat steps 7 and 8.
11. Store key in a separate, secure location away from firearm.
12. To Unlock: Insert the key into the lock body and turn clockwise until lock opens. Remove chain from receiver.
