

Bushmaster Carbon 15 Rifles & Pistols...

Featherweight 5.56mm/.223 Caliber Rifles with molded Carbon Fiber Components

Carbon 15 Series

Carbon Fiber... An incredibly durable composite material - 40% stronger and 40% lighter than aircraft aluminum - is used in these unique firearms. Developed for the aerospace industry, Bushmaster molds it to produce Upper and Lower Receivers; Buttstock; Forend; Charging Handle and other components of many models in the Carbon 15 line. This composite is so light that complete rifles can weigh as little as 3.9 lbs., - Pistols only 46 oz. - yet it has the strength to withstand the powerful 5.56mm/.223 Rem. cartridge. Additionally, Carbon 15 is completely impervious to moisture, it can't rust or corrode, and it requires no surface finish as it is matte black throughout.

M4 "Hybrid" models... The Flat-top and Model 4 Carbines are unique hybrids of traditional AR-15 design and space-age Carbon 15 materials - with receivers 3/4 lb. lighter than forged aluminum, and functional controls like any AR-15 type rifle. They're fitted with Picatinny Optics Rails to accept a variety of scopes, holographic or red dot sights, or night vision equipment. Chrome lined barrels offer the legendary Bushmaster durability and accuracy.

Stainless Steel Barrels... The Carbon 15 R97S and R21 Rifles below, and all Pistols, feature Match Grade 416 Stainless Steel Barrels - precision machined, polished, and button rifled 1 turn in 9" for optimum accuracy with a wide range of 5.56mm and .223 Rem. ammunition. Stainless steel provides corrosion resistance and great durability. The model 97S Rifle, and the P97 Pistol feature fluted barrels for weight reduction and improved cooling capabilities.

Carbon 15 "Flat-top" Carbine... (Part# AZ-C1516M4FT)
Suggested Retail Price... **\$1135.00**

- 16" M4 Profile Chrome Lined Barrel - 1 x 9 twist - threaded muzzle with Izzy Compensator
- Receiver Length Flat-top Picatinny Rail • Dual Aperture Flip-up Rear Sight
- A2 Standard Front Sight • Lightweight Carbon 15 Receivers
- Safety Controls Marked on Both Sides of Receiver
- Six Position Telescope • 30 Round Magazine

Traditional .223 Caliber Carbine Design with Light Carbon 15 Receivers.

Carbon 15 Model 4 Carbine... (Part# AZ-C15M4PRE)
Suggested Retail Price... **\$1135.00**

- 14.5" M4 Profile Chrome Lined Barrel - 1 x 9 twist - with pinned/welded Izzy Compensator
- Receiver Length Picatinny Optics Mounting Rail with integral Dual Aperture Rear Sight
- A2 Standard Front Sight • Lightweight Carbon 15 Receivers
- Safety Controls Marked on Both Sides of Receiver
- Six Position Telescope • 30 Round Magazine

Available only through FFL Dealers

Carbon 15 R97S Rifle (Part# AZ-C15R97S)

Suggested Retail Price... **\$1263.00**

- 16" Stainless Steel Fluted Match Grade Barrel
- A2 Birdcage Flash Suppressor • Hogue™ Pistol Grip
- Chrome Plated Bolt Carrier • Picatinny Optics Mounting Rail
- Dual Aperture Rear / Blade Front Sights - adjustable for windage and elevation
- Ambidextrous Safety Machined from Aluminum Alloy
- Tactical "Multi-Carry Mode" Black Nylon Sling included

Bushmaster's Lightest Carbines... with Tough Carbon 15 Receivers.

Carbon 15 R21 Rifle... (Part# AZ-C15R21)

Suggested Retail Price... **\$970.00**

- 16" Stainless Steel Match Grade Barrel - 1 x 9 twist • Quick Detach Compensator
- Receiver Length Picatinny Optics Mounting Rail
- Black Oxide Bolt Carrier • Safety Controls Marked on Both Sides of Receiver

Carrying Case included...\$18.95 Value

All Bushmaster Rifles are shipped in this lockable, foam padded case with a 30 Rd. Magazine, Operation & Safety Manual & Warranty Card

Bushmaster Warranty... We back the superior quality and durability of all fine Bushmaster firearms with a One Year Warranty against defects in materials and workmanship.

Bushmaster Carbon 15 Pistols...

These unique Handguns... utilize the same Carbon Fiber composite technology and rugged features as the Bushmaster Carbon 15 Rifles – resulting in incredibly light, durable, and power-packed 5.56mm / .223 cal. pistols.

Carbon 15 Series

Carbon 15 Top Loading Carbine... (Part# AZC-C15RM4FT)

M.S.R.P. \$1050.00 Available through FFL Dealers

- 16" M4 Profile Chrome Lined Barrel - 1 x 9 twist - with Izzy Suppressor • A2 Standard Front Sight • Dual Aperture Rear Sight
- Receiver Length Flat-top Picatinny Optics Mounting Rail • Lightweight Carbon 15 Receivers • Six Position Telescop
- Safety Controls Marked on Both Sides of Receiver • 10 Round Internal Magazine

The unique Carbon 15 "Top Loading" Model has been developed specifically for the California market (and other States with similar restrictions). It offers traditional AR-15 type features, rugged Carbon Fiber composite molded Receivers for light weight and durability, and a 10 Round Internal Magazine - loaded by simply pushing in the Receiver Takedown Pin and then pivoting open the Receivers. This exposes the Internal Magazine components - which are permanently fixed in position within the Lower Receiver. Cartridges can then be inserted into the Magazine Feed Lips in the same manner as any removable AR-15 type Magazine. Internal Magazine capacity is limited to 10 Rounds, and the bottom of the Magazine Well is sealed as shown in photo at right. Shipped in Bushmaster's lockable hard case with Black Web Sling, Orange Safety Block, Sighting In Target, Operation/Safety Manual - One Year Warranty.

The Bushmaster Carbon 15 .22 Rimfire Rifle

M.S.R.P. \$790.00

(Part # AZ-C1522LR)

Available at FFL Dealers

Feature Specification

Caliber	.22 Long Rifle - Rimfire
Magazine Capacity	10 Rounds
Overall Length	33"
Barrel Length	16"
Rifling	1 turn in 16" R.H. twist
Weight w/o magazine	4.1 lbs.
Weight of empty magazine	2.4 oz. (.15 lb.)
Weight of loaded magazine	3.7 oz. (.23 lb.)
Mode of Operation	Blowback / Semi-Auto

The Bushmaster Carbon 15 .22LR Rimfire Rifle is designed to conform to the feel and function of Bushmaster's traditional 5.56mm / .223 caliber models. Receivers, Buttstock and Charging Handle are molded of Carbon Fiber composite for durability, strength and light weight. Chambered for the economical .22 Long Rifle Rimfire, the C1522LR operates in semi-automatic "blowback" mode. Operational controls (charging handle; safety lever; bolt catch; magazine release and trigger) are functionally and ergonomically identical to all AR15 type rifles - making the Bushmaster C1522LR an ideal training arm for developing skills with the AR15 type system - .22 Rimfire ammunition is acceptable for use in indoor ranges. This rifle features a highly accurate 16" Chromoly barrel; Titanium "blowback" bolt; dual aperture rear sight; square post front sight; and Receiver-length Picatinny rail for easy mounting of any scope, optic, red dot or laser sight. Safety Selector Lever markings are color-coded on both sides of the Lower Receiver to quickly determine the rifle's firing status. As with other AR15 type models, captivated takedown pins allow Upper and Lower Receiver separation for easy cleaning and lubrication. Designed and manufactured in the U.S.A., the C1522LR includes a 10 Round Magazine and Operator's Manual and ships in a hard plastic carrying case. Warranted for one year against defects in materials or workmanship.

Carbon 15 .22 LR Rimfire Receiver/Barrel Assembly... This .22 Rimfire "dedicated" Upper Assembly fits all Bushmaster and other "mil. spec." Lower Receivers. Hone your shooting skills with economical .22 Long Rifle ammo - acceptable at most indoor ranges. Complete kit includes all pieces necessary to convert your rifle over to .22 Rimfire (parts will combine to work with all types of stocks - tele included). Chambered for .22 Long Rifle only - semi-automatic blowback operation.

For High Power Competition Training... a 20" Barreled .22LR Upper Receiver Assembly... Similar to the 16" Barreled Upper Assembly above (photo in Uppers Section of this catalog), but with a Forged Aluminum Upper; Complete A2 Dual Aperture Sight; Full Length Handguards, and a heavy (.750" diam.) Chromoly Steel Barrel - excellent for High Power Competition training. Fits most "mil. spec. AR" lowers. **\$469.95** (Part # AZ15847K)

Extra Magazines for the Carbon 15 .22LR Rimfire Rifle or Upper Receiver Assembly... \$24.95 (Part # AZ15280)

Carbon 15 .22LR Upper Receiver/Barrel Assembly... \$387.00

Includes 10 Rd. Magazine and Adapters (Part # AZ15846K)

Bushmaster Carbon 15 Rifle & Pistol Accessories...

Carbon 15 Accessories

A. Threaded Adaptor for Carbon 15 Models... \$26.50 (AZ15133) A Quick Detach Adaptor like the Carbon 15's standard Brake, but designed to accept standard 1/2x28 threaded brakes and suppressors (may require a crush washer).

B. Silent Sling...\$41.95 (AZ723) Standard on the 975 Rifle, this quality tactical sling will fit any other Bushmaster Carbon 15 Rifle. Durable, black ballistic nylon – easy Velcro strap attachment – offers multiple carry modes.

C. / D. / E. Light & Laser Mounts... These Mounts clamp to the barrel fluting on Type 97 Pistols and Type 97 / 975 Rifles to offer a mounting point for the various lights and lasers. The **SureFire Mount – C.** (AZ718) **\$26.95** takes 1" diam. flashlights (they recommend their #650 Universal Weapon Light). The **Mag-Lite Flashlight Mount – D.** (AZ717L) **\$26.95** holds 3/4" diam. lights, and the **Laser Mount – E.** (AZ719) **\$26.95** accepts 3/4" diam. laser sighting units.

F. Carbon 15 Ambidextrous Safety and Safety Lever The complete **Ambidextrous Safety Assembly... \$33.50** (AZ724) is available as a spare or replacement part for your Carbon 15 firearm, or just the Lever can convert existing safeties on Type 21 or 97 Pistols and Rifles to achieve ambidextrous functioning in "weak hand" mode. Machined of aircraft quality aluminum – black anodized. **Safety Lever only... \$11.95** (AZ724L) is molded of Carbon 15.

G. Quick-Pull Takedown Pin for Top Loading Carbine... \$3.95 (AZC-15120) Makes opening the Receivers of the Top Loading Carbine easier and faster - a sling swivel, a split ring or piece of paracord can be attached for a better grasp.

H. Carbon 15 Youth Sized Buttstock... \$26.50 (AZ15279) Perfectly sized for the younger shooter, or smaller woman, this Carbon 15 molded buttstock easily replaces the standard stock on Bushmaster Carbon 15 rifles by releasing the receiver locking lever (will not fit C15 Pistol receivers). It's 8 1/4" overall length yields an 11 1/4" trigger pull length.

I. Recoil Pad for Carbon 15 Buttstock... \$16.95 (2698827) This molded black rubber recoil pad offers extra shooting comfort. Its a slip-on fit on all older Carbon 15 buttstocks, and will fit the new style buttstock with minor modification.

J. Accessory Rail for Carbon 15 R21/R97/R975 & Lady Rifles... \$57.95 (AZ15694) An anodized aircraft aluminum Rail that offers a mounting point for accessories under the forend - requires by drilling/tapping for installation.

K. Accessory Rail for P215 Pistol Forends... \$52.95 (AZ15695) An anodized aircraft aluminum Rail Segment that attaches by drilling/tapping into the Pistol's forend to provide a mounting point for flashlight or laser accessories.

L. Picatinny Optics Mounting Base for P21/P97 Pistols... \$52.95 (AZ716) A machined, anodized aircraft aluminum Rail that slides onto the Pistol Upper and locks in place with a screw. A solid base for standard optics - remains true to zero when removed/reinstalled - see-thru design allows use of Pistol's existing iron sights.

M. Full Length Optics Rail with Integral Sights... \$147.95 (AZ15198) This Picatinny configuration rail (standard on Type 975 Rifle) can be added to Type 97 or Type 21 Rifles as a factory installation (drilling / tapping required) to offer both integral iron sights and unlimited optics mounting. Aircraft aluminum - matte black hard anodized, the rear sight is a dual aperture flip-up with windage adjustment, and the front sight is an AR standard post - elevation adjustable.
