All A3 Type Models include this Removable Carry Handle which clamps onto the Picatinny Rail of the "Flat-top" Upper Receiver.

- ChromeMoly Vanadium Steel Barrels in various lengths as indicated - all Manganese Phosphate finished to insure protection against corrosion or rust. The 16" Heavy Barrel has a threaded "Birdcage" Flash Suppressor. AK 47 Type Muzzle Brake and 5.5" Suppressors are permanently pinned and welded onto barrels to achieve legal length barrel units.
- Dual Aperture Rear Sights on A2 models have 1 M.o.A. elevation adjustments and 1/2 M.o.A. windage adjustments with a 300-800 meter range. The A3 Type Carbines (Removable Carry Handle included) have 1/2 M.o.A. adjustments for both elevation and windage with a 300-600 meter range. The A3 Upper has a Picatinny rail for the attachment of sights, scopes, or night vision optics. A2 Front Post Type Sights are adjustable for elevation.
- Six Position Telescoping Stocks are fitted to all models - other stocks are available as optional installations
- All Bushmaster Carbines are shipped in a Lockable Hard Case with Operator's Safety Manual, 30 Round Magazine, Orange Safety Block and Black Web Sling
- One Year Bushmaster Warranty

**NOTE:** Some States have regulations against certain components of these firearms (such as bayonet lugs, flash suppressors, high capacity magazines, telescopes). For sales in those States, Bushmaster offers configurations of these rifles without those features. Contact Bushmaster's Sales Department for details.
