

NEW

Gas Piston Retrofit Conversion Kit. (GP-GSR)

- Same reliable gas piston system found on AK and FAL weapons
- Simple to install, dramatically improves reliability and reduces parts wear
- Short-stroke piston vents gases beneath handguard, not into the receiver
- Designed to help prevent potential fouling problems
- Requires no permanent modification to existing rifle
- Passed a grueling 10,000 round non-stop endurance test without failure
- Also available in heavy-barrel (GP-GSR-HB)

Magazines: How To Feed A Bushmaster.

- Bushmaster magazines are guaranteed to fit and function in 5.56mm/.223 AR15 Type rifles
- Built to the tightest tolerances, and optimized seam welding for superior strength for Mil-Std compliance
- Magazines feature "anti-tilt" followers, quality tempered steel springs and removable base plates

- 30 Round (8448670)
- 20 Round (8448670-20)
- 10 Round (8448670-10)
- 5 Round (8448670-5)

Modular Accessory System Four-Rail Free Floater Forearms. (YHM-9479)

- Virtually unlimited mounting options for sights, scopes, grips, lights, and lasers
- Free floater forearms feature four Picatinny rails and are machined of aircraft quality aluminum and hardcoat anodized
- Vent slots on all sides aid in barrel cooling and rail front edges are drilled and tapped for B.M.A.S. Swivel Sling Stud

*Note: This unit will not fit our .308 rifle or Gas Piston Carbine.

Lower Parts Kit.

- Build the best lower receiver; use only the best – Bushmaster original parts
- Get the same precision and high standards found in all Bushmaster firearms
- Kits available in either AR15 or M16* components

- AR15 Lower Parts Kit (ALOW KIT)
- M16 Lower Parts Kit (MLOW KIT)

*Note: M16 Parts require FFL or MG Tax Stamp. M16 Parts are not legal for sale in California.

6-Position Fiberlite Telescoping Stock Assembly.

- For rock-steady control, this heavy-duty design easily adjusts to 6 positions
- Durable Telestock features an internal buffer spring with cylindrical weights – a Bushmaster original design
- Engineered to absorb and reduce recoil for consistent shot placement and precise follow-ups
- Ribbed body offers added strength; sling loop is fitted in the standard position
- Top slings can be attached through the slotted body

Bolt Carrier Assembly.

- New manufactured bolt carriers machined of highest quality gun steel
- Chrome-lined for smooth bolt operation and long life
- Machined to the most critical tolerances of any component in the operating system. Manufactured to mil. spec. or better
- Magnetic particle inspected to insure against cracks or flaws

(8448505)

(8448507)

CAUTION: Bolt Carrier Keys must be "staked" onto the carrier for proper functioning. For information on this procedure or any AR15 assembly/disassembly work, we recommend the Bushmaster video or the U.S. Government Technical manual.

- AR15 with Key (8448505-S)
- M16 with Key (8448505)
- AR15 without Key (8448507-S)
- M16 without Key (8448507)

*Note: M16 Parts are not legal for sale in California.
